**Light, healthy refreshments will be available all day – with a break for lunch with carers and volunteers**

### **History**

Bald and Beautiful Founder, Judith Taylor was helping her mother through her own cancer journey in Newcastle. During this time Judith recognised there was a gap in terms of well being. Often feeling isolated and unwell, cancer patients then had to deal with the experience of hair loss. As well, attempts to develop well-being practices were hampered by financial constraints.

Based on the concept of **Camp Quality** for children and **Canteen** for Teens, it was realised that adults also need Fun, Pampering and Wellbeing. Bald and Beautiful Day was born in Newcastle in May 2005 with a small team and has grown from there.
